Vape Sling®

MODster™ Cross-Body/Shoulder Sling

The MODster is a heavy duty cross-body sling.

Worn cross-body, this sling allows the user to hold the largest and heaviest mods on the market. 1.5" wide webbing provides hours of comfort while letting you vape on the go. The MODster is an excellent fit for all large 18650 and 26650 and Box Mods. Whether, BOX, Cylindrical, triangle or any geometric shape, your device will be held comfortably and securely by your VapeSling® MODster.

HandCheck™

The HandCheck, HandSling, was developed to accommodate users with a secure method of hand carry or HandCheck.

Hand goes thru, from above the sling, directly behind the cradle. Your Mod will be comfortably cradled in your hand, in full display and always ready to vape.

Average Joe™

The Average Joe is a heavy duty neck lanyard. It is an excellent fit for all e-cig sizes, from small e-pens to large 26650 Mods. Your device will remain upright in a comfortable position. Can be worn in or outside of your shirt or top.

1.5" wide webbing will provide hours of comfort while letting you vape on the go.

Having your vape conveniently available at chest level, is truly a vapers sweet spot.
